Cathy,

Attached please find the following:

1. A spreadsheet showing the current status of the dam registration process. Please note that we are trying to complete everything associated with the registration requirements in 2015.
2. Quarterly Inspection Forms for Possum, Chesterfield, and Bremono (will forward Chesapeake's when we get it).

All ECC's were provided training as follows:

1. Dam inspection oversight training at the May 2010 ECC meeting.
2. All ECC's received a copy of **Pocket Safety Guide for Dams and Impoundments** in October 2012.
3. All ECC's received dam safety inspection training at the June 2014 ECC meeting.

There

We do not review the results of the quarterly inspections by the ECC's. By the checklists and the instructions they have received, they are to report (and they do) any unusual or changed conditions to John Cima or Mike Winters.
